

The Gold Standard for Administrative Services Only Dental Clients.

Securian Dental delivers the complete package.

When it comes to dental benefits, your self-funded ASO clients often face a difficult decision: Choose a low-cost, third-party administrator that only does the bare minimum, or go with a large, full-service carrier – and pay big ASO fees to match.

For impressive savings and full service, Securian Dental is the solution. Our ASO net fees are as low as \$2.50 per member per month, and guaranteed for two years for clients with 2009 effective dates. Clients simply get more for their self-funded ASO dollar.

40 years with dental as our only business

The infrastructure that serves your Securian Dental ASO clients is behind the dental benefits of 4 million individuals in 22,000 employer groups. More than 3 million of these members are in groups of 100+ employees, and most are self-funded ASO groups.
